and regulatory requirements are met and that wine samples are preserved from the time they are blinded until the classification has been drawn up.

ARTICLE 8 - JURY MEMBERS

The competition jury is made up of several judging committees, each one consisting of:

- 3 wine tasters, holding a qualification as wine technicians or oenologists or any other equivalent qualification obtained outside of Italy, possibly representing an associate region of the CERVIM;
- 2 expert wine tasters.

In accordance with DM 16.12.2010, the committees will have a majority of foreign members, still respecting the number of 3 wine tasters as stated above.

Judging will be done according to the assessment form developed by the U.I.O.E - "Union International des Œnologues" (International Union of Oenologists) which is used during international wine competitions. The evaluation form uses a scale of 100 points. Each member of the committee gives his/her own independent assessment.

The tasting committees are made up of 5 members: one of the wine tasters acts as President of his or her judging table and carries out a preliminary check to verify that all forms are filled in correctly, as well as regulating the order of the tasting sessions.

If any of the judges is not able to carry out his or her duties during any tasting session, they may be replaced by a person with the same role, also by Italian wine technicians and/or journalists designated by the president of the organising committee, excluding anyone who has directly or indirectly contributed to the organisation of the competition. The judges' verdict is final. For confidentiality reasons, only the list of the award-winning wines will be made public, not the list of all the wineries participating in the competition nor the score assigned to each sample.

Upon request, the CERVIM will provide wine producers with a copy of the jury's evaluation of their wine(s), until 31st December 2017.

ARTICLE 9 - SCORES AND MEDALS

Each wine entered in the competition will be evaluated by a committee.

Selected wines will be awarded respectively:

As established by the rules of the OIV (International Organization of Vine and Wine), **the total number of awards assigned must not exceed 30% of the total number of entries in the competition.**

According to their score, winning wines will be awarded a medal and a diploma.

The final score for each sample is determined by calculating the arithmetic mean of the numerical ratings, after excluding the highest and the lowest evaluations.
